

Problem-Solution Fit

Date	29/09/2026
Team ID	UNM1425COMICCRAFT
Project Name	COMICCRAFT
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] - Hobbyist storytellers with ideas but no drawing skills - Students and teachers who want illustrated stories for class - Content creators and casual users who want a quick, personalized comic	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] - Cannot draw or use design software - Little money or time to hire an artist - Needs a computer with a browser and internet (Gemini API); image generation needs a capable machine	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Hiring an illustrator: high quality, but costly and slow Manual comic makers/templates: full control, but need drawing skill and time Generic AI image tools: fast, but no story, inconsistent panels, no PDF layout
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] - Cannot turn a story idea into a finished illustrated comic - Story text and pictures do not match; layout is tedious Frequency: every time they try to make a comic	9. PROBLEM ROOT / CAUSE [RC] - Comics need both writing and illustration skills - Existing tools handle only the story or only the image - No single workflow from idea to a finished, exported comic	7. BEHAVIOR + ITS INTENSITY [BE] - Search for free tools, try several separate apps and copy text between them - Manually arrange panels and retry until the tone and look feel right Intensity: high effort with repeated attempts; many give up
3. TRIGGERS TO ACT [TR] - Has a new story idea - A class or creative project needs an illustrated story - Wants a fun comic to share with friends - Sees that AI can write and draw	10. YOUR SOLUTION [SL] ComicCraft, a FastAPI web app that turns a story prompt into an illustrated comic - User enters prompt, character name, setting, tone and art style Gemini Flash creates a 5-panel outline; Gemini Pro writes narration and dialogue Stable Diffusion draws each panel in the chosen art style - Preview on screen, change tone or style and regenerate - Layout builder and FPDF export a downloadable PDF	8. CHANNELS OF BEHAVIOR [CH] ONLINE - Web searches for comic makers and AI tools - Tutorial videos and social media
4. EMOTIONS BEFORE / AFTER [EM] Before: frustrated, stuck and overwhelmed After: excited, proud and satisfied with the finished comic		OFFLINE - Talking to friends or teachers - Sketching ideas on paper - Printing and sharing the finished comic in class or with friends
